

**Over
40
Years of Continuous Nuclear
Experience**

SSM Industries Inc.
maintains five diversified Fabrication Groups that can operate
as a team or independently to meet all of your requirements.

SSM Commercial HVAC Group (Pgh. & Phila.)
Fabricate and install complete commercial and industrial HVAC systems.

SSM Industrial Steel Fabrication Group (Pgh.)
Fabricate and install (as required) light, medium and heavy structural and plate
metal fabrications including tanks, hoppers, cyclones, stacks & platforms.
Complete design capability is available.

MIDSTATES Spiral (Lindab Spiral) (Pgh. & Phila.)
Fabricate and supply complete spiral duct systems including all appurtenances.
Available in galvanized, stainless and aluminum in all pressure classes

SSM Field Services Group (Pgh.)
Complete technical field services capability including NEBB certified air and
hydronic system testing and balancing as well as field engineering. Complete
duct leak testing, HVAC system survey and commissioning.

SSM Power Group (Pgh.)
Design, qualify, fabricate and install HVAC and specialty metal fabrications for
critical applications and regulated industries including nuclear, chemical and
weapon disposal.

- **High bay fabrication facility with crane capacity throughout the plant. Complete capability from light sheet gauge through plate work.**

This facility in Pittsburgh is a completely equipped plate and sheet metal facility staffed by experienced and qualified fabrication personnel.

- **A Proven Quality Assurance Program.**

Over 35 years of metal fabrication experience has provided a solid quality basis upon which to provide qualified, certified products. Our Quality Assurance program has remained dynamic during this time incorporating the latest industry requirements.

- **Experienced, qualified & certified fabrication personnel.**

We maintain between approximately 100 fabrication & support personnel to support your schedule needs. Our fabrication personnel have been trained, qualified and maintain certifications in accordance with ASME and AWS, as applicable.

Certified Small Business Fabricator
